SUMMARY

Full Stack Developer with strong frontend expertise and expanding backend capabilities through Scrimba's Full Stack Development Program (50% complete). Proven track record building production-ready applications with React.js, JavaScript, and Node.js. Unique background combining technical development skills with 2+ years of sales/marketing experience and analytical problem-solving from Industrial Chemistry degree. Passionate about creating scalable, user-focused web applications.

TECHNICAL SKILLS

Frontend Development

React.js • JavaScript (ES6+) • TypeScript • HTML5/CSS3 • Tailwind CSS • Redux • REST APIs • Responsive Design

Backend Development *(Currently Learning via Scrimba)*

Node.js • Express.js • MongoDB • RESTful API Design • Authentication & Authorization • Database Design

Tools & Technologies

Git/GitHub • Firebase • Postman • Figma • Sentry • D3.js • TMDB API • EPUB Integration

Marketing & Business

CRM Systems (Zoho, HubSpot) • Digital Marketing • Sales Analytics • Customer Acquisition

PROFESSIONAL EXPERIENCE

Frontend Developer | Freelance

2023 – Present

SleekTV – Netflix Clone Streaming Platform

- Architected full-featured streaming platform achieving 98% Lighthouse performance score using React.js and Firebase
- Engineered real-time TMDB API integration handling 10,000+ media assets with seamless pagination

- Implemented dynamic content caching strategy reducing initial load times by 65% Deployed responsive UI supporting desktop, tablet, and mobile viewports

SilverBank – FinTech Dashboard Application

- Developed comprehensive banking interface with real-time transaction monitoring and Sentry error tracking (90% uptime)
- Built interactive D3.js data visualizations processing 1M+ financial data points
- Optimized application performance reducing bundle size by 40% through code-splitting and lazy loading
- Integrated secure authentication flow with role-based access control

AcaiaZone – Christian Web Novel Platform

- Led frontend development team implementing custom EPUB reader with 15ms page render speeds
- Designed modular CSS-in-JS theme system supporting 50+ accessibility configurations
- Shipped 3 major version updates ahead of schedule through agile sprint methodology
- Collaborated with backend team on API integration and data flow optimization

Growth Architect | **SAO Consulting (SMMA)**

2023 – 2024

- Scaled digital marketing agency to ₦500k ARR through strategic outreach campaigns (20% conversion improvement)
- Engineered high-performance advertising systems delivering 3.8x ROAS for SMB clients
- Built automated CRM workflows reducing client onboarding time by 65%
- Maintained 4.5★ average client satisfaction rating through systematic reputation management

Industrial Training Intern | **Shongai Packaging**

2022

- Gained hands-on experience in polymer manufacturing processes and quality control procedures
 - Assisted in monitoring and optimizing production parameters for plastic products
 - Participated in quality assurance testing of polymer materials and finished products
 - Collaborated with production teams maintaining safety standards and product quality
-

EDUCATION

B.Tech in Industrial Chemistry

Federal University of Technology, Akure (FUTA) | 2018 – 2023

Final Year Project: "Effect of Ageing on V(V) Extraction Using 1-Octanol"

- Developed optimized metal recovery process using UV-Vis Spectrophotometry
- Applied analytical problem-solving to process optimization challenges

Scrimba Full Stack Developer Bootcamp (50% Complete)

2024 – Present

- Mastering Node.js, Express.js, MongoDB, and full stack application architecture
 - Building RESTful APIs, implementing authentication, and database management
 - Hands-on projects: Blog API, Authentication System, E-commerce Backend
-

CERTIFICATIONS

Frontend Development Certification | CareerEX/YouThrive Program – 2024

React.js, Modern JavaScript (ES6+), Responsive Web Design

Red Cross First Aid & Safety Certification – 2025

Emergency Response and Crisis Management

NYSC Certification – 2025

Completed with Distinction

German Language (CEFR High A1) | Duolingo Certified

200+ Day Learning Streak

CORE COMPETENCIES

- **Problem Solving:** Systematic debugging and troubleshooting complex frontend/backend issues
 - **Collaboration:** Experience leading development teams in agile workflows with clear communication
 - **Fast Learner:** Rapidly acquire new technologies (mastered React hooks in 2 weeks)
 - **Time Management:** Consistently deliver projects 20% ahead of schedule through effective prioritization
 - **Business Acumen:** Unique ability to bridge technical development with customer needs and business goals
-
